

FOR IMMEDIATE RELEASE

Manchester, New Hampshire, USA, May 15th, 2018

Hitachi Cable America Releases Revolutionary Cable Design

Hitachi Cable America Inc. (HCA), a leader in the manufacture of high performance copper and fiber optic communication cables, strives to be at the cutting edge of technology and continues to do so through the development and release of its **Drybit™** Category 6 indoor/outdoor plenum-rated cables. **Drybit** cables offer a design that is appropriate for both wet places and plenum spaces. The unique dry core cable design allows the owner to safely bridge two distinct cable environments using one single cable. Since **Drybit** cables eliminate the need to physically transition from one cable type to another, they also eliminate the space, materials and costs associated with doing so. **Drybit** is made in the USA at HCA's Manchester, New Hampshire facility.

For more information about **Drybit**, visit [Drybit from Hitachi Cable America](#)

About Hitachi Cable America, Manchester Facility:

The Manchester facility belongs to the Performance Cable Systems & Materials Division of Hitachi Cable America Inc.
