DR. BILL BERSING, DM, PE, CCM JOINS AFG AS DIRECTOR OF PROGRAM ADVISORY SERVICES

Herndon, VA, June 13, 2018 – Noted construction management, program management and relocation management firm, AFG Group, Inc. (AFG), announces the hiring of Dr. William (Bill) T. Bersing, DM, PE, CCM as Director of Program Advisory Services. Dr. Bersing will oversee AFG’s advisory services for construction management, project controls, claims management, technical schedule reviews, project information systems, data visualization, and project management tool sets.

“We are excited to have Bill join the firm and believe that his state-of-the-art experience, insight and vision will drive added value into our client relationships and project results,” said Kenneth Reese, cGMP, Vice President for Construction Operations.

A well-regarded industry leader in providing program management and dispute resolution support, Dr. Bersing has lent his expertise to over \$4 Billion of construction programs. His portfolio includes clients such as the State Department, Federal Transportation Authority, Naval Facilities Engineering Command, U.S. Army Corps of Engineers, and the World Trade Center’s Resiliency Programs.

Dr. Bersing holds a Doctorate of Management in Organizational Leadership, a Masters in Management Information Systems, and a Bachelors in Civil Engineering with minors in Mathematics and Economics. He is currently serving as the Communications and Scholarship Chair for the Society of American Military Engineers’ (SAME) Blue Ridge Post, is the former Vice President of the SAME Naples Post, and former President of the American Society for Civil Engineers’ Italy Section. Dr. Bersing is also an Advisory Board Member with the United Nations International Resilience Center.
