

ROCKLER INTRODUCES CEILING TRACK SYSTEM FOR GARAGE AND SHOP

MEDINA, MN – (July 10, 2018) – Rockler Woodworking and Hardware has introduced a ceiling track system for the garage and shop that reduces benchtop clutter by enabling users to position cords, hoses and other items from above.

“When you’re working with project parts on your bench or table, cords and hoses can be like a bull in a china shop,” said Steve Krohmer, Rockler’s vice president for product development. “Just a slight move, and things start crashing. With the Rockler Ceiling Track System, you get the cords and hoses up out of the way but still can move them while you work.”

The Ceiling Track System features interchangeable ring and hook attachments that thread into two available types of wheeled trolleys, which in turn roll in the dedicated ceiling-mounted track. Adjustable stops secure in the track to allow users to limit the trolleys’ movement, if desired, as well as prevent the trolleys from rolling out of the track. All components are available individually or in value-priced combo packages to allow users to customize their configuration to fit their work space.

The ring and hooks also can be used in applications such as suspending cabinet doors so all sides can be spray finished at once.

The track is made from durable PVC and is sold in 4' sections that can be cut if needed. Each section is rated to hold 60 pounds and comes with mounting hardware and detailed installation instructions.

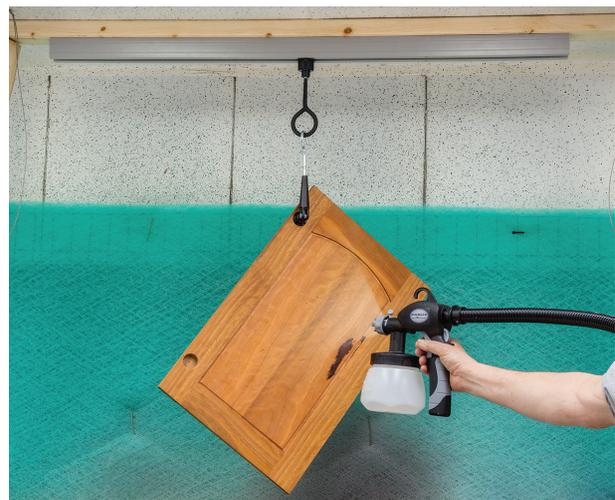

Two types of trolleys are available to use with the track. One rolls freely to allow easy repositioning, and the other locks in place when a fixed position is desired. Both feature sealed ball bearing wheels for smooth travel and durability, and both have 5/16"-18 TPI threaded openings to accept the attachments.

The attachments include a 1-1/2" inside-diameter ring hook that fits power cords and air hoses; a medium J hook that fits hoses and other items up to 2-1/2" in diameter and a large J hook that fits hoses and other objects up to 4" in diameter. All are shaped from durable steel rod and feature a rubberized coating. Each attachment/trolley combo is rated to hold 20 pounds.

Prices for individual Ceiling Track System components start at \$9.99:

55845	4' Ceiling Track	\$29.99
52414	Locking Trolley	\$14.99
54170	Non-Locking Trolley	\$14.99
50644	Ring Hook	\$9.99
57333	Medium J Hook	\$9.99
52443	Large J Hook	\$9.99
58879	Ceiling Track Stops (pair)	\$9.99
57795	Accessory Kit	\$39.99

All Ceiling Track System components can be purchased at Rockler.com or at Rockler Woodworking and Hardware stores nationwide, as well as through the Rockler catalog. For store locations or a free catalog, visit www.rockler.com or call 1-877-ROCKLER.
