Color your intranet

BindTuning is the leading platform for building connected, engaging workplaces for Microsoft Office 365 and Microsoft SharePoint.

Our innovative platform allows you to quickly design and deploy modern, mobile-ready intranet sites without any coding and for a fraction of the cost of traditional development.

The BindTuning difference

Themes that enable you to quickly brand your site with your corporate logo, brand colors and fonts, without any code.

An extensive gallery of mobile-ready web parts that can pull data from existing SharePoint lists, document libraries and calendars.

Professionally designed business-oriented templates that look and function like modern websites.

A desktop app that deploys new sites within minutes.

Breathe new life into your intranet.
