HOW PREDICTIVE COACH WORKS

1 Driver Behavior Is Tracked And Documented

Driver Data And Scores Are Pulled From App

- Phone Use
- Speeding
- Hard Acceleration
- Harsh Braking
- Cornering and Swerving
- Harsh Braking

2 Relevant Training Lessons Are Assigned Automatically

Not all drivers are the same. Some are great drivers. Others may be aggressive or distractible and put your agency at risk. Predictive Coach ensures you are training drivers according to their distinct personality types and driving tendencies. Training lessons may be taken on any laptop, tablet or mobile device and drivers receive certificates for their completed lessons in a fun, gamified learning experience.

3 Managers Have Full Visibility With Dashboard And Reports

All fleet, safety and risk managers have access to the Predictive Coach management portal. The dashboard, program settings and reports are available around the clock. Reports can even be scheduled for management so Predictive Coach is truly a completely automated driver training program.
