

TERIS Expands National Footprint With Addition of Phillip Reader.

TERIS Welcomes Phillip Reader, further establishing their presence in the Midwest.

TERIS, a leading national eDiscovery provider, announces the addition of Phillip Reader as an eDiscovery Consultant based out of the greater Chicago area, operating in the Midwest. TERIS continues to grow its footprint organically by remaining at the forefront of enterprise-level information management and eDiscovery. TERIS works directly with corporate legal teams across a variety of industries to deliver repeatable, defensible, and scalable eDiscovery services.

Law Firms and Corporations turn to Teris when they are...

- Striving to achieve enhanced visibility into their data, and therefore cases
- Frustrated from dealing with hidden/unforeseen costs and ready to take action
- Under significant pressure to eliminate inefficiencies in their approach to discovery
- Committed to accomplishing excellence in the defense of their clients
- They've had it with pains of not knowing who to call when issues arise

TERIS Principal, Richard Saldivar, said *"As an experienced and successful sales executive with a rich knowledge of the legal environment, we are excited to welcome Phillip to the TERIS team."*

Teris offers adaptable support at varying levels according to client needs, from extensive data storage to complex case review and analysis and computer forensics. Platforms are similarly flexible, including traditional print services as well as fortified databases with robust search ability.

Teris sets the bar higher than others in the industry by:

- Providing dedicated legal professionals to manage your projects from start to finish
- Using flexible pricing models tailored to accommodate the needs of their clients
- Maintaining the highest levels of security at their data-storage facilities

About TERIS

TERIS is a full-service litigation support services provider founded in 1996. TERIS serves corporate and legal clients within the U.S. and internationally. We provide consultation-based solutions, state-of-the-art technologies and highly experienced team members.
