CybatiWorks™ User's Conference at the Ohio State University (November 5 - 6, 2018) $595

Participants during the 3rd annual Department of Energy Cyber Defense Competition using the CybatiWorks™ Pipeline Mini Kit.

The CybatiWorks User's Conference will provide a review of use cases of the CybatiWorks platform and upcoming new features for Pipeline and Power Grid cybersecurity. Did you know that the CybatiWorks educational platform is used by professionals and academic institutions? We now have over 30 academic institutions using the platform and over 9,000 professionals. You will hear from university professors, high school teachers and cybersecurity professionals. The 2-day conference agenda will be solidified over the next couple of months. We encourage you to register as soon as possible for this first event of its kind.

You will learn:

- How CybatiWorks can be used in your community for BSides, CONs, high school and outreach programs
- What local community colleges are doing to expand their cybersecurity education
- Where and how CybatiWorks is growing Bachelors and Master degrees programs
- How you can use CybatiWorks in your professional endeavors to teach others critical infrastructure and control system cybersecurity at your employer and suppliers

Where is it?

The 2-day conference will be hosted at The Ohio State University Union from November 5 - 6, 2018 from 8:30am until 5:00pm. Morning and afternoon pastries and refreshments will be provided.   A block of hotel rooms has been reserved at The Blackwell. After event registration you will receive more information about how to use our negotiated rate.
