Press Release

SILICON VALLEY— (PRWEB)— Illumeo Announces the release of the Corporate Cyber Security certificate program.

Illumeo's "Corporate Cyber Security" certificate program is a deep dive into cyber security risks and issues and includes 13 courses and 23 hours of deep learning content, taught by Lynn Fountain, a renowned subject-matter-expert in risk management, with decades of experience in the subject. The Corporate Cyber Security certificate program includes up to 23 hours of fully accredited continuing education credit (CPE/CE/RCH) for a variety of professional certifications.

The program, which can be found at www.illumeo.com/curriculum/corporate-cyber-security-certification, is brought to users via Illumeo's corporate learning platform, used by many of the world's most successful companies, service firms, government organizations and non-profits. Illumeo's platform includes over 1,000 on-demand courses in the areas of internal audit, risk management, audit & assurance, accounting and corporate finance, along with over two dozen varieties of continuing professional education (CPE) credit that Illumeo is accredited to provide.

The certificate program is available online and on-demand. Anyone with a web-connected device and a web browser can take the program's courses, learning at their pace, and take testing at the end of each course to ensure they are absorbing what is taught by the instructor. It's an incredibly easy and convenient way to learn. If you missed something, just go back, as often as you need, to complete your learning.

"We are very happy to be bringing the Corporate Cyber Security certificate program to our users," said John Kogan, Illumeo founder and CEO. "In today's increasingly competitive world, deep functional knowledge is in greater demand than ever. Access to cyber security expertise should be available to all who are responsible for understanding and managing risk for service firms and corporations. Illumeo has the platform, the world-class practitioner-instructors, and the affordability to make this happen."
