40%
Increase in engagement

85%
Decrease in training program spend

Knovio is used by more than 150,000 customers in diverse institutions, business segments and verticals. Our clients create multimedia presentations for a variety of purposes including e-learning, corporate training programs, executive briefings, human resources on-boarding, and investor relations.

The results: Knovio produced multimedia presentations are shared and tracked throughout organizations.

The Evolution in Live Streaming: Knovio **LIVE**

The video platform with advanced features and video tools so you can stream, share, and measure all your live video communications instantly. **It's that easy.**

DRIVE MORE ENGAGEMENT

With real-time slide and video sync your viewers will feel like they are there in person. Interactive video players with in-sync chapter navigation, live Q&A, and downloadable materials give viewers a powerful and flexible viewing experience that never disappoints.

DIY FROM ONE PLATFORM

With the Knovio LIVE streaming platform, there's no need to hire additional video production teams to produce your event. Simple workflows, guest registrations, and near real-time analytics make it fast, simple and affordable to deliver live experiences whenever and where-ever.
