EagleView Promotes Leader to Oversee Company-Wide Operations *Chief Operating Officer at EagleView to guide business operations for continued growth*

Bothell, WA (August 17, 2018) – EagleView Technologies (“EagleView®”), the leading provider of aerial imagery and data analytics for government, insurance and commercial sectors, today announced its promotion of Jay Martin to Chief Operating Officer (COO).

In this role, Martin will lead the operations teams while collaborating with fellow executives to ensure the efficiency of the business. Previously Senior Vice President (SVP) of Operations, Martin has led all domestic and international operational functions for the company, including flight capture, customer project management, technical support, and more.

Martin graduated from Duke University with his master’s degree in Business Administration. He has managed teams of various sizes at a number of technology companies throughout North America, scaling operations and growing revenue in each position. With his vast experience as a team leader, Martin is a natural fit to head company-wide operations.

“Under Jay’s leadership we have seen significant improvements in all areas of our operations,” said EagleView CEO Rishi Daga. “Jay has fostered a culture of continuous improvement through his introduction of kaizen and data-driven decision-making, resulting in consistent and superior customer satisfaction results. I am confident that his continued contributions will help EagleView achieve its long-term objectives.”

EagleView is an innovative data company offering high-resolution aerial imagery captured by various sources, property data derived from machine learning capabilities, and measurement solutions for government agencies, insurance carriers, energy utilities and construction markets. As the COO, Martin will oversee operations touching each part of the business, enhancing processes and taking steps to perfect customer service.

“Within the past couple of years, I’ve been able to witness the talent and momentum this company has,” stated Martin. “This new role gives me the opportunity to take that momentum and keep it moving and growing. I’m excited to see where this company is headed.”

Martin will transition from his current role as SVP of Operations to his new role as COO immediately.
