

iPatientCare has opened registrations for National User conference (NUCON) 2018

iPatientCare NUCON 2018 event offers social interaction and latest learning opportunities; and is scheduled from October 12-13, 2018.

Old Bridge, NJ, August 23, 2018 - iPatientCare, Inc., a pioneer in cloud-based ambulatory EHR and revenue cycle management services, have announced about its annual gala event – National User Conference, 2018, that will be held at [MGM Grand Casino Hotel, Detroit](#) from October 12-13 (Friday and Saturday).

This annual user conference involves iPatientCare users, channel partners, and [business partners](#). While the event offers a great learning opportunity through presentations of current features and services and sneak preview of the future product releases, it serves as a platform for relaxation full of fun and excitement that engages entire iPatientCare community.

This year the educational sessions are planned differently for all its users to stay up-to-date on all the trends in this ever-changing healthcare system. The knowledge sharing continues with discussion on topics relating to Value based care, MACRA/MIPS, PCMH, Telehealth/Remote Patient Monitoring, specialty-focused implementations.

“iPatientCare is delighted to have this opportunity to connect with all its users and partners every year because we believe that when we are surrounded by people who share a passionate commitment around a common purpose of delivering better healthcare, then anything is possible. As the healthcare regulations are ever-changing, we enhance our features and technologies to help the providers and front-desk staff to deliver their best. The City of Detroit has been renovated recently, has a beautiful Riverfront, attractive downtown, interesting Greek Town, and great hotels with Casinos and lounges. Additionally, we have a substantial user base in the Detroit Metro area in particular and in the Midwest region in general.” said [Udayan Mandavia, CEO, iPatientCare, Inc.](#)

About iPatientCare:

Based at Old Bridge, New Jersey, iPatientCare is a private-held Corporation that is nationally recognized as one of the leading companies providing EHR and integrated MACRA-ready solutions and intelligent medical billing and [revenue cycle enhancement services to physician offices](#) providing primary and specialty care, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide.

At iPatientCare, we help healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. Our expert teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and

SLA. We also provide a dedicated account manager and a team of talented experts assigned to work as an extension of your office, instead of operating as an outsourced billing company or technology vendor.

iPatientCare EHR 18.0 has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at [ONC Certified Health IT Product List](#). If desired, we make the difficult tasks of revenue cycle optimization and MACRA/PCMH/QR reporting easier by bundling innovative EHR and other cloud-based practice solutions as part of our revenue cycle management and MACRA consulting services at no additional costs.

As part of its [MACRA-ready solutions](#), iPatientCare has been recognized as a qualified MACRA-MIPS registry for the year 2018 by CMS, and has a distinguished credit of being selected as a preferred EHR vendor and medical/chiropractic billing company by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
