

A woman with long dark hair is sitting on a dark grey couch. She is wearing a black V-neck top, a grey and white patterned cardigan, black shorts, and black knee-high socks. She is looking down and to the side. The couch has a pink blanket and a light blue pillow. The background shows a modern interior with a white wall and a dark wooden shelf.

The Sonsee Story.

When you start your career as a pattern maker in an exclusive wedding fashion house, you learn a lot about women, fashion and fit. When I moved on to product development, creating private label fashion for large retailers, I learned about hosiery as well.

That's when I saw how the limitations of mass production leave some of us behind, especially plus size women. I set out to fix that.

In the US I found bloggers who told me there was nothing available that fits. In Northern Italy I found Sonsee's amazing 360 degree stretch fibre to solve the problem. And in Australia, I found the TV program, Shark Tank.

I appeared on the first Australian episode and won the support of RedBalloon founder and entrepreneur Naomi Simson, who quickly helped me overcome traditional retailers' reluctance to invest in the plus size market. Naomi encouraged me to branch out into other neglected areas – intimates and active wear.

The story's not over yet. Hope you can join us for the next chapter.

Founder

It's for you

You told us hosiery available for plus size women was badly sized and uncomfortable. So we designed for plus size shapes and created beautiful, strong, seamless garments that are comfortable, flattering, durable, and luxurious.

Italian 360 Degree Stretch

Our Italian 360 Degree Stretch Technology is unlike other hosiery fibre. It has so much elasticity, it creates a lightweight, durable fabric that stretches in every direction. It sculpts to your body and moves with you like a second skin, so there's no restriction whatsoever. And it remembers you.

When you take your Sonsee pantyhose off they remember your shape and slowly shrink back to their own.

No sag, no wrinkles and no tight spots. Bliss.

Anti-roll waistband

There's no point having pantyhose that stretch, only to have a waistband that digs. So we've created a clever anti-roll waistband that sits smoothly and comfortably while it keeps your pantyhose in place effortlessly. We use more elastane and build the intensity gradually in a wider band. It works.

BRA - HIGH BACK

RRP \$35 USD

Product description

Offering a low level of support but a high level of comfort, this seamless bra is so soft and gentle on your skin.

The band sits flat on the ribcage and does not twist, roll or dig in.

This seamless bra features a high back that allows the bra to effortlessly maintain the shape of your breast without “squishing”, and puts no pressure on your neck or shoulders whilst giving you that feeling of “support” without the contained feel of a traditional bra.

It's the bra you wear when you don't feel like wearing a bra!

Styling tips

Wear the Sonsee bra on it's own, or pop it on over your bra for extra comfy coverage (especially those pesky bra straps that dig in on your standard bra – this will cover those up)

Wear the Sonsee bra as a crop during low-impact exercise such as yoga – so comfy and cool to wear

Selling tips

EVERY girl needs one of these!

SHAPEWEAR SHORTS

RRP \$ 54.90 USD

Product description

Made for curves, Sonsee Shapewear smooths and flatters, so you can feel good and look great all day long.

Styling tips

Firm, not tight, these shorts give you a smooth silhouette under your closest fitting clothes. The high, wide band doesn't cut in, so there are no bulges where the shorts begin and end. And it doesn't roll or creep, either, so you can move any which way without worrying where they'll end up.

Seamless construction means they won't show under your clothes while firmer shaping panels around the tummy, thighs and booty enhance your shape.

All in supreme comfort so you can wear them all day – and at night, too.

“

Sometimes, I just want tights.
No shapewear, just tights. But still with
a smoothness for my clothes to lay over
like butter... they do that

I finally understand the hype.
Thick, luxurious, stretchy, these babies

OMG! Firstly, I am a very young looking
61 year-old African American curvy woman
living in Australia for the past 12 years....
sending home (San Francisco) for "stuff" –
hair products, panty hose and other stuff. I'm
learning to sew, because at 5' 3" size 18-20
on top, but uh.... amply proportioned on the
bottom, it's been tough to say the least.
Got a pair of Sonsee footless tights
and have been so moved, HAD to read
about them. Don't usually watch TV reality
shows or "pitches", but have watched
Shark Tank a few times "by accident."
So, making the connection between founder,
Shark Tank and this wonderful product...
can't wait to get more.

FINALLY I can be one of those people
who do everyday things in their 'activewear'.
I do personal training a few times a week and
I have been wearing a weird combo of pyjama
pants and t-shirts that get in the way of my planks
and pulls, if you know what I mean. BUT NOW
I have proper stuff from @sonsee_woman and I
put it on this morning for my sweat session for the
first time and it's so darn comfy and brilliant and it
looks so sporty and fierce that I have kept it on all
day to do stuff like drop Peg at a play date and
get a hot chook for lunch and pick up a click
and collect Trolls doll from Target (don't ask) and
even watch ten minutes of Napoleon Dynamite...
all in my activewear... activewear... because
newsflash: curvy ladies exercise too 🍑🍑🍑
**not a sponsored post! More of a community
service announcement for women who've been
thinking... what about me? ** PPS - by the look of
my rug and 2 baskets of crap in the corner
I probably could've you know, vacuumed
in my activewear... activewear...
