

New Product Announcement

Thermocapture™ Smartphone App Scans, Records and Retains Disinfection Temperature Label's Pass / Fail Results

Glenview, IL – Sept 10, 2018

Thermocapture™ DL is a personalized self-adhering, waterproof, color-changing label that measures the surface temperature of dishware in commercial dishwashers. Using Thermocapture™ DL on a dish surface with each wash cycle will indicate that the proper dishwasher temperature has been reached for sanitation. Label is adhesive backed, can be customized to your requirements, accurate to 1°C and provides proof of HACCP Compliance.

Thermocapture™ App will photograph the irreversible temperature label capturing your information, including the pass / fail color change, and upload data and images to your password protected data base / web page, automating record keeping!

Simple Set Up

- Stock label or we create a label to your specifications
- Download Free App for any Smartphone
 - We send you an invite code
 - Register Company and label with invite code (Creating personal cloud-based data base)
 - Create a secure password

Ready to Go

- Affix label to a dish and run through a wash cycle
- Photograph Label with App at the end of cycle
 - Capture QR Code Identifier
 - App qualifies it as pass or fail (label will turn from silver to black indicating pass)
 - Tags record with location and time.
 - Stores recorded data / image for client access

That's it. Data is stored on your smartphone and on your password protected page where images and data can be viewed or downloaded for validation purposes.
