FOR IMMEDIATE RELEASE

Playport Gaming Systems Participating in NASPL Conference

Through its patented Playport™ mobile gaming technology, company is changing how instant win games are played and sold

OVERLAND PARK, Kan. (Sep. 11, 2018). Playport Gaming Systems ("PGS"), a digital, instant-win game technology company, today announced an upcoming appearance at the following industry event:

North American Association of State and Provincial Lotteries (NASPL) Annual Conference
Cleveland, OH
September 24-28, 2018

During the conference, Frank Rash, Chief Operating Officer, and Jim Nulph, Chief Revenue Officer, will be presenting PGS's patented Playport instant win gaming system, which brings the benefits of mobile to players, retailers, lotteries and casino operators.

Hosted by the Ohio Lottery, this year's NASPL conference will be attended by industry thought-leaders from around the world, focused on exploring and understanding opportunities for future success in a rapidly changing environment.

About Playport Gaming Systems

Playport Gaming Systems LLC ("PGS"), digitally connect players with lottery retailers and casinos for the sale of instant win and linked progressive games. Through its patented Playport gaming technology, PGS provides a real money wagering and marketing software platform that allows lottery retailers and casinos to sell digital custom-designed and branded instant win and progressive games, that integrate seamlessly with their existing POS systems and digital properties. Players buy games and collect winnings at the lottery retailer or casino, but are able to play the games on their mobile device wherever, whenever they want. Playport is regulatory compliant, requires zero capital expenditure and all transactions take place at the lottery retailer or the casino, bringing operators more revenue, customer insight and loyalty.

PGS is changing how instant win games are played and sold by providing players more choice and a better game play experience through use of mobile based ecommerce. PGS is certified by BMM Testlabs for launch in U.S. tribal casinos and is an active associate member of the National Indian Gaming Association (NIGA). PGS offices are located in Overland Park, Kansas. For more information, visit www.playport.com.
