**HDP User Group Announces New Member**

*Cave Creek, Arizona September 12, 2018.* High Density Packaging (HDP) User Group is pleased to announce that Elec & Eltek PCB has become a member.

"All good shows crave to benefit an audience, but one-man shows don't always make it to the box office. We, at Elec & Eltek have innovative vanguard technical ideas and the talents to develop, participate and collaborate. HDP User Group is the world stage where we can perform together to make "box office hits" for all our customers." said Daniel Foo, Global FAE lead of Elec & Eltek.

"As a leading producer of high tech printed circuit boards, Elec & Eltek is an excellent addition to the HDP User Group Membership. The Staff and Members of our organization are looking forward to working with them on our projects and activities.", said Marshall Andrews, Executive Director of HDP User Group.

**About Elec & Eltek PCB**

Elec & Eltek operates 6 production sites; 3 in Kaiping, 1 in Guangzhou, Yangzhou, and Thailand respectively. The company also has Sales support and FAE representation in the Americas and Europe. Elec & Eltek is the highest revenue contributor to a collection of independently run PCB manufacturing companies under the umbrella of KingBoard Holdings Limited. Collectively, under Kingboard, we ranked number 12 in revenue globally in 2017. Kingboard is the world's largest manufacturer of Low, Mid, and High Tg Prepreg and Core laminates encompassing both non-halogen and halogen free material. Elec & Eltek has capitalized on the above to also manage a prepreg and core laminate plant in the heart of the KaiPing campus. Today, the business supports four major Industries – Network & Telecommunications (5G), Automotive (general, Autonomus Driving, & ADAS), Industrial Equipment (Data Storage) & Consumer electronics, and Medical. E&E is pioneering and participating in leading 5G development and support that today defines the emerging Internet and Wireless platform to tomorrow's Internet Of All things (IOAT).
