MyTana Shares Drain Cleaning Invoice Template

Free Template Helps Plumbers and Drain Cleaners Maintain Steady Cash Flow.

ST. PAUL, MN—September 24, 2018— MyTana, a manufacturer and distributor of cleaning, maintenance and inspection tools for the plumbing and drain cleaning markets, has released a free, downloadable Invoice Template. This template helps plumbers and drain cleaners organize their bookkeeping and streamline their billing process to ensure timely payments.

The download comes with both fixed rate and hourly templates as Excel files, allowing operators to easily bill according to their business needs. Each template is fully customizable with space for individual company information, payment terms and a logo. The download also comes with an instruction sheet that makes set up and use simple.

A steady cash flow is key for any small business to remain successful, but entrepreneurs often focus their efforts on gaining new customers, with little regard for the challenges of billing those they have. “Invoicing and receiving payment can be a big hurdle for small businesses,” says Dale Graber, general manager for MyTana. “It’s a particular challenge for sole proprietorships. Our invoice template provides a simple, quick way for plumbers and drain cleaners to bill for their services. The quicker the invoice gets to the customer, the quicker the business gets paid.”

Download the invoice template with instructions at: inbound.mytana.com/invoice-template. This template was created as part of MyTana’s Business Series, which provides resources and management tools to small businesses and sole proprietorships in the plumbing and drain cleaning industries.

About MyTana Manufacturing
