CENTURION 360°
REAR VIEW MIRROR CAMERA

360° Seamless Video

360° → 240°

Better with Fortify

· Utilizes Fortify Evidence Management Technology

360° **Front, Rear, Sides**

· Capture complete 360° around the vehicle.

Pre-event Recording

· Programmable from 0 to 120 seconds

Capture the Whole Story in 360!

The **Centurion 360** is the world's smartest, most integrated 360° rear view mirror camera system, effectively capturing much more than just the rear view.

· Captures everything in-front, inside and around the vehicle, virtually eliminating the blind spots inherent with conventional mirrors
· Dedicated front-facing traffic camera
· Event-triggered recordings
· Standard rear view mirror size

Tell the whole story in 360!

CENTURION 360

CENTURION 360

The Centurion 360 provides an invaluable asset for safety, security and legal protections. Failing to capture video at any angle due to a blind spot could have catastrophic consequences. This is where Centurion 360, the world's smartest, most integrated, 360° rear view mirror camera system comes in. The single 360° lens captures everything in-front, inside and around the vehicle, virtually eliminating the all too familiar blind spots inherent with conventional mirrors. Add in a dedicated front facing traffic camera, a simple user interface, and Centurion 360 transforms into the smartest rear-view mirror on road today.

The Centurion 360 is a fully integrated system that combines the latest 360° camera technology with the software features valued most by public safety; all housed in an easy to install, standard sized rear-view mirror

Centurion 360 Rear View Mirror Camera *Key Features and Differentiators*

· Fully integrated, single lens 360° camera

· Innovative, yet familiar design

· Dedicated forward facing traffic camera compatible with most License Plate Reading services

Combine Centurion 360 with *Fortify Digital Case and Evidence Management*

Centurion 360 captures real-time events as they unfold both inside and outside of the vehicle. Videos can then be easily offloaded and viewed using Blue Line Innovation's FORTIFY system or on the cruiser's Mobile Data Terminal.

Fortify was built with the modern law enforcement officer in mind. Fortify allows multiple videos and associated files to be easily located and retrieved, making digital case and evidence management simple.

· Supports Multiple File Formats/Devices - Single Repository

· Simple Case and Evidence Keyword Search

· Easily Reviewable Evidence by the Officer and Agency

· Complete Chain of Custody Integration

FORTIFY™
