FOR IMMEDIATE RELEASE

Playport Gaming Systems Participating in G2E Conference

Through its patented Playport™ mobile gaming technology, company is changing how instant win games are played and sold

OVERLAND PARK, Kan. (Oct. 2, 2018). Playport Gaming Systems (“PGS”), a digital, instant-win game technology company, today announced an upcoming appearance at the following industry event:

Global Gaming Expo (G2E)

Las Vegas, NV
October 8-11, 2018

During the conference, Jim Nulph, Chief Revenue Officer, Brian Ferrilla, Chief Product Officer and Dennis Nelson, Senior Director Business Development, will be presenting PGS’s patented Playport instant win gaming system, which brings the benefits of mobile to players, retailers, lotteries and casino operators.

“Attended by over 26,000 industry professionals from around the globe, G2E presents the gaming industry’s most in-depth source of new products and the perfect environment to showcase our cutting-edge mobile gaming platform,” said Frank Rash, Chief Operating Officer, Playport Gaming Systems.

About Playport Gaming Systems

Playport Gaming Systems LLC (“PGS”), digitally connect players with lottery retailers and casinos for the sale of instant win and linked progressive games. Through its patented Playport gaming technology, PGS provides a real money wagering and marketing software platform that allows lottery retailers and casinos to sell digital custom-designed and branded instant win and progressive games, that integrate seamlessly with their existing POS systems and digital properties. Players buy games and collect winnings at the lottery retailer or casino, but are able to play the games on their mobile device wherever, whenever they want. Playport is regulatory compliant, requires zero capital expenditure and all transactions take place at the lottery retailer or the casino, bringing operators more revenue, customer insight and loyalty.

PGS is changing how instant win games are played and sold by providing players more choice and a better game play experience through use of mobile based ecommerce. PGS is certified by BMM Testlabs for launch in U.S. tribal casinos and is an active associate member of the National Indian Gaming Association (NIGA). PGS offices are located in Overland Park, Kansas. For more information, visit www.playport.com.
