## **doxo Announces Major App Update and Largest Directory of Payable Billers from Any App**

*Bill pay leader doxo has announced a major update to its popular mobile iOS and Android apps; now enabling payment to over 45,000 billers*

SEATTLE, WA. Bill pay service leader [doxo](#) announces the best update yet to its popular iOS and Android mobile apps, making all-in-one bill pay easier than ever. Now users can use any form of payment, get reminders, and schedule automated payments on over 45,000 billers—over four times more than any other app. The service also continues to grow its user base and now allows users to pay through the website or through the app while they're on the go.

“We’re delighted to announce this exciting major app update, which makes all-in-one bill pay easier than ever,” comments doxo CEO and Co-Founder **Steve Shivers**. “The consistent feedback we receive from our users is their need for comprehensive coverage of all their billers, large and small, national and local. Our updated iOS and Android apps are tailor-made based on this user feedback, and greatly simplify paying and tracking due dates for all your billers.”

The updates to the doxo mobile app are now available for download in both the [Apple App Store](#) and [Google Play](#). The doxo apps for iOS and Android now let users securely pay any of 45,000 billers with any payment account including bank accounts or credit, debit, and mileage card accounts, and to store that information for quick future payments. Among the updated features within the [doxo mobile app](#), users can now set reminders for when specific bills are due or schedule automatic payments for recurring bills in order to avoid costly late payment fees. Immediately following a bill submission, a confirmation e-receipt is delivered which enables users to track payment status in real time.

The new and improved doxo apps also make it easy for users to review account histories and to manage bills with the press of just a few buttons. With the doxo apps, users benefit from the convenience and peace of mind of having their account information securely protected within a single account, as opposed to having multiple usernames and passwords spread throughout the Internet on multiple biller websites.

The doxo app was featured as a [Top Finance App by Parade](#), and was awarded [Product of the Year by the American Business \(“Stevie”\) Awards](#). It was also featured in iVillage, and heralded by *Red Herring* with a Global 100 Award. The doxo app is available now for iOS devices on [the Apple App Store](#), and on [Google Play](#) for Android.

### **About doxo**

Headquartered in Seattle, [doxo](#) makes it simple for consumers to manage and pay their bills in one place. To date, doxo’s over 4.8 million users across the country have added more than 45,000 payable billers to the doxo biller directory, making doxo the first crowd-sourced, customer-centered payment solution for the bills which comprise more than half of U.S. household spending.

doxo also recently announced a partnership to enable Coinstar customers to pay their bills in cash at more than 7,000 kiosk locations nationwide. Billers wishing to enroll in doxo’s payment network to receive cash payments made at Coinstar kiosks or learn more can visit <http://marketing.doxobusiness.com/coinstar-for-billers>.

Founded in 2008, doxo is backed by leading venture investors including Mohr Davidow Ventures, Sigma Partners, and Bezos Expeditions. For more information about doxo visit [www.doxo.com](http://www.doxo.com).

### **About doxo for Business**

Through doxo, large businesses like [Mountaineer Gas](#), [National Grid](#), and [Puget Sound Energy](#), as well as many other regional and local service providers in finance, utilities, healthcare, telecom, banking, insurance and other sectors are getting fast, direct payments—a process that also directly leads to a lower customer care incidence rate and cost per customer.
