

## **iPatientCare, Inc. Successfully concludes its National User Conference (NUCON) 2018 with great success**

**iPatientCare National User Conference 2018 in Detroit concluded with great enthusiasm and appreciation for the informative sessions on Patient Engagement, Quality Reporting programs like MACRA and Value-based Care, and Revenue Cycle Management services.**

**Old Bridge, NJ**, October 16, 2018 - iPatientCare, a pioneer in [cloud-based ambulatory EHR](#) and Revenue Cycle Management services, announced today the successful conclusion of its National User Conference (NUCON) 2018. This conference provided end-users and channel partners of iPatientCare an opportunity to bind their relationships and stand united in adapting to the challenges of healthcare IT reforms.

The Keynote of the conference was addressed by Udayan Mandavia, President/CEO, iPatientCare, and Kedar Mehta, CTO, iPatientCare, in which they shared their insights on “Reducing the burden on care providers” and “Sneak-peak of iPatientCare R2019”. This was followed by other informative sessions like understanding value based care, Remote Patient Monitoring and specialty-focused implementations. During these sessions, the audience enjoyed the live interaction with the speakers.

Additionally, innovative sessions like Fishbowl Conversations, Lightning talks, what’s new and cooking were introduced which received excellent feedback from the attendees. During these sessions, the providers expressed their ideas and shared their feedback on a particular feature. Others offered solutions which were already implemented in their practices. Finale of the event was iPatientCare Jeopardy and Lucky Draw.

Overall iPatientCare clients were satisfied, making the bondage even stronger. To celebrate this bondage, the cruise on the Detroit River was the perfect way to spend quality time with family and other NUCON attendees over drinks and dinner.

“iPatientCare’s annual event – [National User Conference \(NUCON\) 2018](#), is a platform where all the healthcare professionals come under one roof and share their experiences in product enhancements, implementation of a particular feature, and other emerging trends. It is really a pleasure to spend the week-end with our clients and connect.” said [Kedar Mehta, CTO, iPatientCare](#).

### **About iPatientCare:**

Based at Old Bridge, New Jersey, iPatientCare is a private-held Corporation that is nationally recognized as one of the leading companies providing EHR and integrated MACRA-ready solutions and intelligent medical billing and [revenue cycle enhancement services to physician offices](#) providing primary and specialty care, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide.

At iPatientCare, we help healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams,

and plug gaps in staffing and internal bandwidth. Our expert teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA. We also provide a dedicated account manager and a team of talented experts assigned to work as an extension of your office, instead of operating as an outsourced billing company or technology vendor.

iPatientCare EHR 18.0 has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at [ONC Certified Health IT Product List](#). If desired, we make the difficult tasks of revenue cycle optimization and MACRA/PCMH/QR reporting easier by bundling innovative EHR and other cloud-based practice solutions as part of our revenue cycle management and MACRA consulting services at no additional costs.

As part of its [MACRA-ready solutions](#), iPatientCare has been recognized as a qualified MACRA-MIPS registry for the year 2018 by CMS, and has a distinguished credit of being selected as a preferred EHR vendor and medical/chiropractic billing company by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
