Jason Hammons Joins Positronic as Vice President, Global Supply Chain Operations

23 October 2018

Positronic, a global manufacturer of high reliability electronic connector products based in Springfield, Missouri, USA, is pleased to announce that Jason Hammons has joined Positronic as Vice President, Global Supply Chain Operations. In this new role, he will be responsible for shaping the company supply chain management function to create strategic benefits for the company. This includes building a strong, reliable supply chain across the globe, which will play a critical role in the growth and vision of Positronic.

Prior to this role, Hammons has successfully contributed his talents to several product and supply chain management positions. His experience includes 20 years of supply chain and sales management at Springfield Remanufacturing Company. Under his leadership, the Company was awarded the Platinum Award from General Motors for on-time delivery. Hammons also brings experience in strategy and direction for inventory control, replenishment, operations, and training departments from his product management role at O'Reilly Auto Parts.

"Jason's experience in product and supply chain management and his dedication to exceeding customer expectations is an ideal fit for the vision of the company. We look forward to his leadership in this role," states Greg Rocque, President of Positronic.
