

## PRODUCT SPECIFICATIONS

# PARKINGCLOUD NOW

THE EASIEST, MOST ACCURATE PARKING COUNTING SOLUTION AVAILABLE

**ALL TRAFFIC**  
SOLUTIONS

**Parking counting, signage and real-time availability data and reports.**

*...With greater than 98% accuracy levels!*

Be up and running fast—count vehicles at entrances, exits and other defined parking areas and share

- Single lane counting
- Bidirectional
- Side or overhead mount
- Narrow sensing beam differentiates tailgating vehicles
- Accuracy >98%

## Simple installation and configuration

- Automatic range detection for overhead installations
- Thresholds for minimum and maximum vehicle detection time to minimize invalid counts and exclude pedestrians, bicycles, etc.
- Beeper and LED indicators to verify vehicle detection during installation
- Built-in camera to improve calibration and accuracy
- Remote configuration and monitoring

## Connectivity

- Built-in cellular and available, Ethernet connectivity to ParkingCloud™

Integrated with **ParkingCloud**

- **Software as a Service/Cloud-based**
  - No IT involvement, on-premise hardware or network appliances required.
- **Centralized Dashboard** – View all current data, including capacity, available spaces, reservations and percent full for all levels of your facility, on a single dashboard, with the ability to also manually update counts.
- **Standard Reports and Advanced Analytics** – Out-of-the-box reports that show facility utilization by time of day and day of week on a daily, weekly or monthly basis can be generated ad-hoc or via subscription. Ability to also export “raw” data.
- **Alerts** – Notifications via email and/or SMS/text when facilities reach a certain capacity, as well as proactive monitoring including communication or battery issues.

**AllTrafficSolutions.com**

## Displays/Wayfinding
