# Learn Medicine, Not Software.

What makes Medtrics unique is our obsession with usability and user experience. We have leveraged our team's experience in medical education to create an institutional level platform that not only simplifies workflow and saves time, but is also fun to use.

## AN INTEGRATED PLATFORM

Medtrics offers a full suite of tools to help your institution manage all aspects of training, all integrated around the curriculum.

### Onboarding

Assign and collect documents from new students and faculty.

### Scheduling

Centralized pre-clinical and clinical scheduling.

### Evaluations & Surveys

Distributed and collected automatically.

### Scholarly Activity

Allow students and faculty to build a portfolio.

### Curriculum

Create, map, and report curriculum to AAMC.

### Calendar

Schedule events, send out invitiations, and collect attendance.

### Document Management

Role based filesharing for your entire institution.

### Case Logs

Log and track patients, and case logs during clinical training.

### User Management

Manage users, faculty, and staff across the institution.
