About TTI Success Insights

Validated by over **30 years of research**, we are committed to constantly improving our assessments. Data norming and rigorous data analysis conducted by both internal research teams and independent statisticians help ensure our assessments are the **most reliable and accurate tools** in the market.

Using **predictive analytics**, our **assessment tools provide data** to help our customers best **understand themselves and their teams**. This data is customized per company and helps tell the story behind each organization's unique culture.

Individualized and custom group reports provide deep insight into the people who make up an organization. **It's information that scientifically reveals potential and then transforms it into performance.**

100,000 companies

For over thirty years, we've helped **more than 100,000 companies** improve the lives and productivity of their employee, organizations and management teams.
