ACUMATICA INTEGRATION

Overview

Workforce Go! HCM integrates payroll, people, and time management with Acumatica accounting software more seamlessly than any other HCM solution.

Bi-directional realtime integration between your accounting and human capital management systems means faster and more accurate processing. Acumatica's comprehensive real-time analytics also give you more effective forecasting.

Acumatica
The Cloud ERP

When used together, what can Workforce Go! HCM and Acumatica help you do?

Save Time
- One-click transactions link entries in payroll to Acumatica.
- Standard and user-defined accounts in Acumatica are automatically recognized for use in payroll, time and HR.
- Acumatica enables enterprise class HCM functionality.

Reduce Errors
Payroll transactions in Workforce Go! HCM automatically post to Acumatica. That means you can skip these most error-prone steps:
- Rekeying, reformatting or refining
- Exporting/importing

Eliminate Reporting Delays
Workforce Go! HCM modules fully support your Acumatica accounts, so you can avoid these frustrating tasks:
- Rekeying payroll data
- Adding information to payroll transactions after-the-fact

Choose Functionality Options
- Outsourced or in-house payroll processing (fully supported)
- Robust, ad-hoc reporting and analytics
- Employee/manager self-service capabilities
