**Raleigh, NC** - MonarchFx, a business unit of [Tompkins International](http://www.tompkinsinternational.com), continues to grow. As we continue to open more distributed logistics facilities, we have added to our operations leadership team. The team over sees all facilities operation systems. The team determines all product handling and storage requirements through developing, implementing, enforcing, and evaluating policies and procedures. Some of these processes include receiving product, equipment utilization, inventory management, and order fulfillment.

Dave Hanson, East Coast Regional Director, is an accomplished supply chain executive providing leadership to accelerate growth, maximize profitability, optimize inventory leverage, and strengthen the overall operations performance using his industry expertise as the catalyst to do so. He specializes in eCommerce, retail, wholesale fulfillment, and omnichannel distribution operations across multiple sites. Before joining MonarchFx, Hanson worked as Director of Operations for Shorr Packaging, MD Logistics, Regal Beloit Manufacturing, and Jacobson Companies (prior to their acquisition by XPO). Hanson attended St. Ambrose University.

[MonarchFx](http://www.monarchfx.com) is the coming together of world class supply chain and logistics companies with world class sellers of products, to form a reinvented unichannel logistics ecosystem that is new, smart, and innovative. “We are very pleased to have Dave, an experienced executive to help lead our operations team,” stated [Jim Tompkins](http://www.tompkins.com), CEO, MonarchFx.
