NEW YORK, NY (December 4, 2018) - Dom & Tom, an award-winning digital product agency, announces the launch of a new website this week. The new website is designed to highlight UX/UI design, breadth of product and collaboration with clients and best-in-class functionality with Dom & Tom's signature user experience.

"When my brother, Tom, and I founded Dom and Tom nearly ten years ago, we committed to co-innovating with customers and staying ahead of emerging technologies. We wanted to do all of this while living our motto, 'Do Good. Be Good.'" says Dominic Tancredi, co-founder and chief executive officer of Dom & Tom.

Dominic and his twin brother, Tom Tancredi, founded Dom & Tom as a digital product agency specializing in web development, iOS and Android app development, blockchain, and digital innovation. "To ensure that a website stays relevant, we recommend that clients reassess their messaging and websites every two to three years. We're following our own advice," says Tom Tancredi, co-founder and chief strategy officer of Dom & Tom.

Dominic further expanded, saying, "Tom and I had fun being our own client. During a brainstorming session, our team gently reminded us that one of our best pieces of advice was 'listen to the experts'."

Dominic Tancredi added, "Collaboration is a beautiful thing. I'm proud of the way that our team worked together to build a site that represents engagement of all functions across our agency, showcasing the talent we invest in our clients and partners every day."

**About Dom & Tom**

Dom & Tom is a product agency that helps Fortune 500 companies and next generation startups build the future of digital. We support our client's strategic initiatives first and foremost through open collaboration, forward-thinking user experience, engaging design, and cross-platform development for web, mobile, and emerging technologies.
