

## Paramount WorkPlace Recognized as Innovative Provider in 2018 Level Research Innovation Awards

*Paramount WorkPlace a runner-up in the Innovative Procurement Technology of the Year category*

**Detroit, MI – December 14, 2018** - [Paramount WorkPlace](#), a leading software developer and provider of cloud-based and mobile spend management software solutions, today announced it was selected as an innovative provider in the 2018 Level Research (formerly PayStream Advisors) 2018 Innovation Awards. The company received special recognition as a runner up in the category of Innovative Procurement Technology of the Year, along with Procurify and GEP.

For the awards, Level Research judged leading software providers' ability to meet organizations' top back-office transformation goals using emerging technology. The team evaluated over 90 providers and used product demos, [customer testimonials](#), and in-depth interviews to help identify the most innovative companies. Signs of innovation in a provider's solution include the breadth of the solution's features for back-office processes across [Procure-to-Pay](#) and [travel and expense management](#) respectively, and the visual quality and intuitiveness of the solution's design. The awards also honor providers that display a progressive, [global focus](#) and exciting product development goals.

"The main focus of this year's awards was standing out in the marketplace. The winners were the providers that could address organizations' top process pains and goals in unique ways using cutting-edge technology. We think the winners challenge their customers, and the marketplace as a whole, to think differently," said [Major Bottoms Jr](#), Research Manager at Level.

"It's an honor to be recognized by the Level team for our innovation, as continual innovation is the driving force at the heart of our organization," said [Khensa Bangert](#), Vice President of Marketing and Business Development. "By combining deep [procurement functionality](#) that incorporates business learning with an intuitive interface, WorkPlace is helping customers speed their digital transformations. Our current collaborations are focused on the addressing the challenges of specific personas within procurement ,where AI can be leveraged to deliver a solution that offers the most value, and is agile, configurable, and integrable."
