**or [stemcelltrainingcourse.org](http://stemcelltrainingcourse.org)**

### WHO SHOULD ATTEND THE STEM CELL TRAINING?

This course is designed for all providers desiring an education in the practical techniques for offering regenerative therapies. This includes a basic understanding of the science of regenerative biologics, how to market and "sell" the procedures, and how to perform the procedures for musculoskeletal, cosmetic and systemic treatments.

Excellent Course for providers at all levels desiring knowledge and expertise in regenerative therapies. Your patients want an expert!:

- MD's
- DO's
- Nurse Practitioners (NP's)
- Physician Assistants (PA's)
- Nurse Anesthetists
- Naturopaths (ND's)

- REPAIR
- REGENERATE
- RESTORE

### REGENERATIVE TRAINING AGENDA

The R3 Regenerative Medicine Training Course provides an invaluable educational experience for practitioners who desire to properly offer stem cell and PRP procedures. While any provider can hang the proverbial "shingle" to offer regenerative procedures, patients are getting smarter and expect a first rate experience since the procedures are out of pocket and expensive.

Each day will be made up of engaging presentations from industry leaders regarding the patient journey along with practical training sessions from Board Certified, Fellowship Trained providers who are experts in the procedures. The conference is designed to take you on a step-by-step education and assistance through the patient journey and procedure experience!
