

Verifone-Certified MNSP

Verifone has certified Acumera's Merchant Gateway and perimeter security services to work with the Commander® POS as an EZR replacement.

AcuLink™-Commander® Remote Access Service

Connect quickly and easily to the Verifone support Infrastructure with simple one-click activation and deactivation of remote sessions. Automatic disconnect protects your Verifone Commander and keeps your remote sessions PCI DSS compliant.

- Simple one-click connection for remote sessions from the Commander POS and the AcuVigil™ Dashboard
- Automatically disconnects remote sessions after a specific period of inactivity, with a one-click option to extend sessions as needed
- Exceeds PCI DSS remote access requirements 12.3.8 and 12.3.9

PCI DSS [12.3.8](#) and [12.3.9](#)

Activation of remote-access technologies for vendors and business partners only when needed, with immediate deactivation after use. Automatic disconnect of sessions for remote-access technologies after a specific period of inactivity. Go [here](#) to read the entire requirement.

About Acumera

Acumera provides managed security and network visibility for the payment systems and operations of multi-site c-store, retail, and restaurant businesses. Our clients focus on growing their business when they use Acumera's services, remote systems visibility, strong data security, and compliance tools. Since 2002, Acumera has managed and secured thousands of retail networks.

Benefits of Working with Acumera

VALUE

- Acumera is the most cost-effective replacement for the EZR
- Certified by major gas brands
- **We pay \$100** for your old EZRs (new customers only)

SERVICE

- 24x7x365 tech support
- Proactive service culture
- All clients get a dedicated support representative & self-service tools

TECHNOLOGY

- Fast and easy, zero touch firewall installation via our cloud-managed platform
- Visibility dashboard shows every store, device, and connection to reduce truck rolls & site visits
- Apps to connect all c-store systems: payment security, POS remote support, loyalty, and IoT devices

COMPLIANCE

- Acumera is the only MNSP with technology that meets PCI DSS r. 12.3.8 and 12.3.9 for remote access to the Commander POS
- Acumera is a PCI DSS level 1 PCI-Certified Service Provider
- We are listed on the Visa and MasterCard registries of PCI-compliant service providers
- We offer security and compliance tools to support and simplify your PCI compliance efforts
