

Press Release**Lindberg/MPH Ships Temperite and Treet-All Box Furnaces**

January 24th, 2019 – Lindberg/MPH announced the shipment of one (1) Temperite™ Box Furnace and one (1) Treet-All™ Box Furnace to work in tandem. The Temperite™ Box Furnace is configured for aging, annealing, austempering, baking, solution treating, and tempering applications, while the Treet-All™ Box Furnace is configured for annealing, ashing, austempering, brazing, preheating, and solution treating applications.

The box furnaces have work chamber dimensions of 12" wide x 18" deep x 12" high. The Temperite™ and Treet-All™ box furnaces are a part of Lindberg/MPH's modular, stackable, and space-saving line of light industrial furnaces. The two furnaces meet and exceed industry standards for heat-up rates and outer shell temperatures. They offer quick, consistent heat-up rates, full access to the work chamber, minimum heating of outer skin, product load protection, and precise control with long life and reliability. Both are ideal for tool room, plant maintenance, and production applications that require maximum heat-treating, hardening, and tempering capabilities in a minimum amount of space.

"These Temperite™ and Treet-All™ box furnaces are a part of Lindberg/MPH's line of light industrial box furnaces and offer exceptional uniformity and low maintenance. Their modular, space saving design make them ideal for laboratories and research facilities." - Kelley Shreve, Applications Engineer

More unique features of these box furnaces include:

- Lightweight Moldatherm insulation
- Side-mounted controls
- Removable alloy shelves
- Alloy fan and retort
- Double shell side-hinged doors
- Digital temperature controllers

- Separate excess temperature control systems
- Power circuit breakers
- SSR power modules

About Lindberg/MPH

Lindberg/MPH is a leading manufacturer of standard and custom industrial heat treat furnaces, including pit, box, IQ, and belt type for the ferrous and non-ferrous markets. Lindberg/MPH customers cover a wide range of industries including aerospace/military, automotive, commercial heat treating, energy/oil, electronics and the forging markets. Founded in 1912, the company has more than 75,000 industrial furnace installations worldwide and their equipment is backed by a full range of customer support services and the most extensive replacement parts inventory in the industry. Lindberg/MPH is a proven leader in the thermal processing industry, with a long track record of proven policies and management practices.

Lindberg/MPH is owned by Thermal Product Solutions (“TPS”), a leading American manufacturer of custom industrial ovens used for heat treating, finishing, drying, curing, manufacturing automation and process control. TPS is a global leader in thermal processing products and test solutions with brands including Baker Furnace, Blue M, Gruenberg, Lindberg, Lunaire, MPH, Tenney, and Wisconsin Oven. For more information on equipment solutions from TPS visit the website at www.thermalproductsolutions.com. # 229125 & 229169
