## Stone Wet Polisher Series Super A

## Concrete Wet Polisher

The Stadea SWP101K, 5 Inch DTM+ Wet Stone Polisher for concrete countertop stone fabrication designed for ease of use, power, control and durability.

### Designed For Excellence

Features robust DTM+ motor gear system to ensure the optimal speed and power needed for stone wet or dry polishing, fabrication and wide range of use cases from stone concrete profiling, grinding, coring to general purpose usage.

Head Heavy Polisher Design and out-of-core back-handle design minimizes back hand work fatigue and increase pressure on polishing surface of granite concrete etc.

These features ease polishing process and enhance the polishing performance.

Improved grip-size out-of-core ergonomic back handle design minimizes back hand fatigue during usage. New comfortable back hand grip design differs from classic oversize main body hand-grip across air vents. It eliminates air-vent hand blockage improving

### Electrical Safety

- GFCI - Cuts off electricity in case of hazardous electrical shock/ground beyond a threshold
- Double Insulation – For enhanced electrical safety

### Ease Of Use

- Under Water Feed – Minimizes polishing interference
- Water Pressure Control & Water Stopper right from the polisher
- In-built water connector to quick connect with standard water hose
- Three-hole water sprayer for even distribution required for polishing, grinding, coring, profiling process, unclogs cut particles
- Water Splash Guard - Splash guard to stop water spill on polisher and user, Vacuum connector minimizes dust during dry polishing
- Arbor Lock Button - For tool free release of backing pads, profile wheels, core bits, grinding wheels from the polisher arbor
- Power Lock Switch - One push lock for effortless continuous run
- Variable Speed Dial – Adjusts speed to an specific application for specific stone, and wet or dry polishing process
- Ergonomic designed handle – For comfortable grip and best polishing performance
- Dual Front Handle – Top D-Handle for stone fabrication, Side handle for general purpose work
- Ambidextrous Side Handle – Side handle for left or right handed use
- Long Power Cord, Long Water Line – For easy access to all part of countertops
- Supports up to 5” Pads – Compatible for smaller 3”, 4” and up to 5” tools
- Soft Start – For comfortable feel & 5/8” 11 Arbor
