

MEET THE NEW

## TRAX G+ GENERATION

Technologically Advanced  
Real-Time GPS Tracker

2G | 3G | 4G LTE-M

LTE-M  NB-IoT 

KIDS | PETS | ELDERLY | SPECIAL NEEDS | SPORTS | CARS | BIKES | DRONES | BOATS | EQUIPMENT

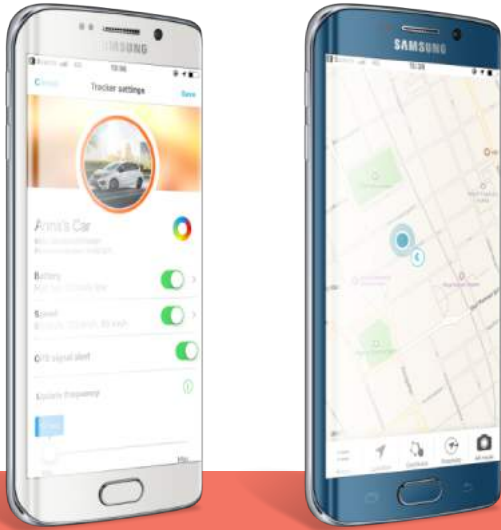

Small in size but big in technology, Trax combines a precise, real-time GPS tracker, with an intuitive smartphone and desktop app.

Dimensions:

55 x 38 x 10.7 mm (2.2" x 1.5" x 0.4")

Weight: 26g (0.92oz)

## Follow Location in Real-Time with Trax Smartphone & Web App

Trax comes with a free App, that is intuitive and easy to use. The App is an essential part of the Trax G+ experience. You will be able to follow your trackers in real-time, and there is no limit to how many trackers you can add.

## What does Real-Time Tracking Mean?

Trax is a real-time tracking device. This means it can send position updates as frequently as every 10 seconds, a very rare feature on the market.

### Trax 2G (G+ Model)

Trax 2G is focused on efficiency, with extended battery life, great coverage in all 2G supported countries, and the new G+ features, at a reasonable price.

Supported by mobile operators in Europe, Latin America, Middle East, most of Asia and USA.

### Trax 3G (G+ Model)

Trax 3G offers the best network coverage in all supported countries, using both 3G & 2G network connectivity. It works almost everywhere in the world.

If you're looking for international coverage or you intend to use your Trax in remote areas, this is the right product for you!

### Trax 4G LTE-M

Trax 4G LTE-M incorporates the latest technological advancements in terms of connectivity, and offers lower power consumption and optimised data transmission.

Usage is limited to the 4G LTE-M coverage offered by mobile network operators.

## Augmented Reality Tracking

# AR<sup>+</sup>

Trax can use Augmented Reality to quickly locate your tracker. The feature will access the camera on your smartphone, to show you live images. When you are pointing in the right direction, your Trax will show up on the screen.

### WIRELESS CHARGING

Gone is the headache of managing cables that inevitably break or get lost. You simply drop your Trax onto the charger and walk away.

### IP68 WATER RESISTANT

Highest level of protection against dust and dirt. It's safe to say it can handle the rain, a dunk in the bath, or a tumble into a puddle.

### SAFE & SECURE

The new range of accessories is designed specifically for child & pet safety, social care, sports enthusiasts and drone owners.

## Works in 100+ countries

Trax is a connected device. It has a built-in SIM Card and a subscription service with free data roaming and the best possible coverage in 100+ supported countries\*.

\*Trax 4G usage is limited to the 4G LTE-M coverage offered by mobile network operators.
