

Advanced Collector Services

Time To Sell Your Collection?

Collection Sales Representation

We deal with all categories of collectibles, including firearms. We can present your collection to known private purchasers. We present your collection to "All" suitable auction houses ensuring the best fit is achieved and the highest financial return possible. Our fees are always upfront honest and transparent, often our fees are no cost to the seller but a referral fee paid by the auction house/ houses disbursing the collection.

Major Collections and Estate Planning?

Estate Planning Services

Ease the pain of your beneficiaries at a difficult time and be sure they are not taken advantage of. Have a plan in place with a Collector Concierge International representative agreement outlining all the details pertaining to dealing with your collections disbursement.

Building a Major Collection?

Collection Purchase Services

Collector Concierge International is made up of a large growing network of collectible category experts. With decades of experience we know where the best stuff is. This service is offered for major value pieces or entire collections. Our reasonable fees are a fraction of the 40-50% cost of sales many auction houses are retaining.

Want to Know Collectibles Condition and Value?

Collectibles Inspection/Valuation Services

When considering selling a collection often the seller seeks "FREE" market valuations from category known auction houses. The trouble with this is some of these auction house valuations are really just marketing garbage. Often once these auction houses have a contact signed and your collectibles in their possession they look for any and every excuse to retract and lower the initial valuations. Collector Concierge International offers valuations performed by category experts for a true unbiased opinion. On private sale buying side this service is especially useful for wise purchasing decisions as well.

Firearm Valuations: by email, reasonably priced using a simple one-page form and photos. Again true unbiased opinion's, not a potential consigning auction houses opinion.

Collectibles Auctions: Our subsidiary AuctionInspection.com has a very popular cost effective program. Often we have representatives at many auctions and there is no travel / accommodation per fees on top of inspection costs.
