LOUISVILLE MEN'S CLINIC REACHES 20K MILESTONE!

NEWS PROVIDED BY THE LOUISVILLE MEN'S CLINIC FEB. 5, 12:00 ET

The <u>Louisville Men's Clinic</u> has just treated their **20 thousandth** patient! The clinic opened their doors in November of 2013 and, to date, has been visited by over 20,000 men suffering from erectile dysfunction, premature ejaculation, low testosterone, and Peyronies Disease. With an over 90% success rate, The Louisville Men's Clinic prides itself on being on the cutting edge of the newest and most advanced technologies and treatments available. Their successes can be verified by many of their satisfied clients.

One such client wrote:

"Never thought things could be this good at 72 years young but I'm happy to say they are. The Louisville Men's Clinic did everything they said they would do and more...I'm a believer! So much so I told my brother to go. And now he' feeling 77 years young. Appreciate what you guys do. Keep up the good work." Ernie – Lexington, KY

The <u>Louisville Men's Clinic's</u> success rate is attributed to the fact it offers more treatment options than many other men's clinic in the country. In addition to traditional patient-oriented erectile dysfunction therapies, the clinic offers **Testosterone Replacement Treatment (TRT)** for patients with low testosterone, **Priapus Therapy** (which stimulates the blood vessels of the penis to regrow), and customized treatments for **Premature Ejaculation (PE)**. Additionally, the clinic was the first and only in the Louisville area to offer **PulseEd™**, a non-invasive, low-intensity acoustic procedure that uses low-frequency sound waves to encourage and regenerate new blood flow to the penis and genital area.

"Don't be discouraged by other procedures or therapies that may not have worked for you in the past," says Regional Director, Brendon Orlandi "We are not a one-size-fits all clinic. Our clinic offers many different approaches and we will customize a plan that is tailored to your individual need."

As one of the 20,000 satisfied patients can attest to,

I suffered from Peyronies Disease that made sex very uncomfortable for years. It was affecting everything in my love life. Not only did the Louisville Men's Clinic correct my issue, they restored what was missing in my relationship. I have no problem telling my friends to go see them for any erectile issue." Charlie – New Albany, IN

The Louisville Men's Clinic is a state-of-the-art men's sexual health clinic, that offers an all-male staff to address erectile dysfunction, premature ejaculation, and Peyronie's disease. Appointments are thorough, discreet, and confidential.
