American Mosquito Control Association Orlando Meeting to Highlight Emerging Mosquito Diseases

(Orlando, FL., February 11, 2019) — The American Mosquito Control Association (AMCA) will hold their 85th Annual Meeting at the Caribe Royale Resort Feb. 25-Mar1, 2019. The meeting will bring together over 1,000 mosquito control professionals, leading academics, members of the military and representatives from local, state and federal government agencies to discuss plans for combatting mosquito-borne diseases. New methods of mosquito control to counteract the many diseases, such as Zika Virus, arriving daily in the U.S. will take center stage.

WHO: National public health and mosquito-borne disease control professionals

WHAT: AMCA annual meeting

WHERE: Caribe Royale Resort 8101 World Center Drive Orlando, FL 32821

WHEN: February 25th – March 1st, 2019

The world's foremost authorities on mosquitoes and the diseases they transmit will be available for interviews throughout the conference. Sessions of potential public interest focusing on mosquito-borne diseases include:

- Tuesday: Adoption of Sterile Insect Techniques by Mosquito Control
- Tuesday: Adult Mosquito Control
- Wednesday: Beekeepers and Mosquito Control: Building a Bridge
- Wednesday: Worldwide Management of *Aedes aegypti* and *Aedes albopictus*
- Wednesday: Innovations and Discoveries in Mosquito Control
- Thursday: Disease and Vector Studies
- Thursday: Field Day (Pavilion RM) – Latest Equipment/New Product/Technology Demonstrations

The AMCA annual meeting is the premier education and networking event for researchers, educators, industry representatives, and students in mosquito control worldwide. Every year since 1935, over a thousand scientists from all over the world gather to hear the latest research and form collaborations. To learn more about the meeting visit:
