Cornerstone Technologies Announces Partnership with Trusted Data Solutions

Partnership Accelerates Data Migration Capability and Growth

New York, NY – (February 26, 2019) – Trusted Data Solutions (TDS), the global leader in legacy data and voice management and transformation, today announced a new partnership with Cornerstone Technologies, a Sonasoft company, that is an innovative Silicon Valley-based engineering services and product resale organization that focuses on The gathering and analyzing of data for intelligent decision making. TDS's Evolve email archive migration solutions coupled with Cornerstone Technologies leadership in the migration services market offers clients a trusted and efficient path for their legacy email and data.

"We have seen increasing demand for broad-based data archiving and large volume data migrations among mid-size and large companies," said Frank Velasquez, chief executive officer of Sonasoft and Cornerstone. *"TDS' impressive legacy data management experience is a perfect fit for our next step – providing TDS' suite of email archive*

migration technology and tape restoration services to our customers. We are increasing our capability to support even larger scale projects, while still maintaining the same level of security, defensibility and compliance. We also see this as an opportunity to show the value of our open archiving platform and e-discovery software solution."

Similar to TDS, Cornerstone Technologies plays a pivotal role in transforming IT environments, providing data migration, e-discovery and other related services to help clients in healthcare, financial services, retail and high-tech sectors move forward with their technologies.

"Cornerstone Technologies has established a notable footprint with its engineering and consulting solutions over the past decade," said Marcella Arthur, vice president of marketing and channel operations at TDS. "We are excited to be joining forces and creating even bigger ripples in the space."

About Trusted Data Solutions
For more than two decades, Trusted Data Solutions (TDS), the foremost expert in legacy data management, has set the standard for compliant access, management and transformation of voice and other electronic data. Their leadership in backup tape restoration, email archive migration, and voice logging retrieval and restoration services, coupled with their recent Voice Compliance Practice advancements, makes them a one-stop-shop for organizations requiring an all-inclusive voice managed service. TDS is the preferred choice for corporations, regulated institutions, eDiscovery specialists, government agencies and law firms that require compliant data transformation. Their industry leadership is demonstrable in their commitment to advancing their services and operations to support the demands of their growing, global customers and partners.

With its North America Headquarters in New York City, and two international headquarters in the United Kingdom and Singapore, TDS maintains one of the most expansive global restoration assurance facility footprints in the market. Facilities are based in New York, New Jersey, California, Canada, England, Wales, Germany, the Netherlands, Norway, Switzerland, Australia, Hong Kong and Singapore. Millions of customer tapes are under TDS management, equating to over 500 petabytes of data, and TDS has successfully delivered over 37 thousand projects.

TDS is a wholly owned subsidiary of TDS Global Holdings which is privately held.
