Pipeline Renewal Technologies Releases Guide to Winning Government Contracts

Free resource discusses how to choose, understand and write a winning bid for a government contract.

RANDOLPH, NJ—March 7, 2019—Pipeline Renewal Technologies (PRT), a distributor of pipeline repair and rehabilitation technologies, released a guide covering the basics of locating, writing and winning a government contract. For many small businesses, bidding on government contracts can lead to rewarding opportunities, but can be overwhelming for those new to the process. *Growing with the Government: A Guide to Bidding on and Winning Government Contracts* aims to simplify the process for contractors by breaking it down into easy, manageable steps. Writing a bid on a government contract, regardless of the level of government, can be a time-consuming, complicated, expensive process.

“Bidding on a government contract can be daunting,” says Nick Sebastian, east coast territory sales manager for PRT. “But our guide provides simple steps, easy instructions and links to additional resources for contractors. And, PRT is ready to help companies of all sizes get the equipment they need to meet the contract terms.”

Download a copy of this white paper free of cost at inbound.envirosight.com/prt-growing-with-the-government-a-guide-to-bidding-on-and-winning-government-contracts. This white paper was created as part of Pipeline Renewal Technologies' commitment to produce and share resources for the pipeline rehabilitation industry.

About Pipeline Renewal Technologies

Pipeline Renewal Technologies is an Envirosight company focused exclusively on the pipeline rehabilitation market. The company offers technologies for no-dig structural lateral connection; drain and mainline cutting; durable point repair; video drain flushing; and process measurement. A strong emphasis on support makes Pipeline Renewal Technologies the partner of choice for municipal contractors looking to gain a competitive edge with innovative technologies. Pipeline Renewal Technologies is a member of NASTT and NASSCO.
