Summit Empowers Women to Achieve Financial Freedom through Real Estate Investment

Successful real estate investor and entrepreneur Noelle Randall gives women proven tools and strategies to win in the real estate investment industry

DALLAS, Texas—For Noelle Randall, a high-energy real estate entrepreneur from Dallas, being involved in the real estate industry is much more than just about flipping houses. Randall is focused on changing the face of the real estate investment world, and it all starts with equipping women with the self-belief and knowledge they need to create multiple streams of income and conquer the real estate market. With these goals in mind, Randall has created a three-day event especially for women, the Grow Your Wealth Investor Summit, which will be held in Houston, Texas on April 26-28th.

The Grow Your Wealth Investor summit was born out of Randall's desire to help women profit in the real estate industry without spending their own money or accruing crippling debt. She developed the workshop and its content from her over 20 years of experience as a successful entrepreneur in a variety of industries, including real estate investing.

Informed by her successes and entrepreneurial experience, Randall founded the Women Who Win Real Estate Coaching Program, which provides inspiring and informational training, workshops and events that teach women the skills they need to start from scratch and build successful real estate businesses. Additionally, Randall is the co-founder of FDR Horizon Enterprises, LLC, a private real estate investment firm and managing entity of major retail brands.

During the three-day workshop Randall is hosting in Houston, attendees will discover smart real estate investment strategies that are proven to generate income. Randall will share her easy-to-follow system that has successfully garnered her over 200 real estate transactions in an effort to help attendees find and secure lucrative real estate deals.

The Grow Your Wealth Investor summit seeks to give attendees the opportunity to connect with other like-minded, motivated women who are ready to change their lives and financial futures while giving them the tools they need to generate leads, negotiate agreements and find cash buyers for their properties.

By registering for the event, attendees will learn from real deals via case studies presented during the live event. Registrants will additionally secure access to a virtual training four weeks before the event. This online training gives attendees access to Randall and her team via four Live Virtual Accelerator Calls, which will help attendees learn insider tips and prepare for the event.

“My goal with the Grow Your Wealth Investor Summit is to empower women by giving them the tools they need to diversify their incomes and live their dreams,” said Randall. “People are often intimidated by the real estate market, but I’m here to give women proven tools and strategies that help them find their place in the industry and succeed without huge financial risks. I’m a firm believer that when women win and succeed, we all win.”

Tickets are currently available on the Grow Your Wealth Investor Summit page, with early bird rates available for a short time. Preferred room rates are also available at the event site, the Houston Marriott West Loop.
