

PRC Clinical Advances Clinical Trials with Veeva Vault eTMF

PRC Clinical Implements Veeva Vault eTMF To Drive Greater Operational Efficiency And Enhance Collaboration With Sponsors.

San Francisco, CA. [PRC Clinical](#), a full-service CRO in Burlingame, CA is expanding its eTMF capabilities with Veeva Vault as the foundation for its electronic Trial Master File services. Veeva Vault eTMF enables multiple levels of the clinical study teams to manage TMF processes and documents in one system, in real-time, as they are executed. This active eTMF sustains the Trial Master File in a constant state of inspection readiness and provides sponsors full visibility into TMF status. With Veeva Vault eTMF, PRC Clinical continues to offer sponsors access to the latest technologies aimed at risk management and efficiency.

“We can now seamlessly combine the quality of our Sponsor support and study sites to provide advanced high-quality TMF capabilities provided by Veeva Vault eTMF,” said Curtis Head, Chief Executive Officer at PRC Clinical. “Veeva Vault eTMF enables us to deliver a next-level CRO experience to our pharma, biotech and regenerative medicine partners. This allows PRC Clinical to further streamline our clinical trial operations, improve study document quality and surpass the level of TMF services offered by larger CROs.”

By adding Veeva Vault with mobile capability, PRC Clinical remains at the forefront of cutting-edge eClinical offerings with smartphone proficiency and personalized support. PRC Clinical is strengthening its quality management systems and processes to better support pharmaceutical, biotech, and medical device Sponsors under increasing regulatory responsibilities in North America and globally.

“We are proud to support PRC Clinical and help them deliver high quality TMF services to their customers,” said James Reilly, Vice President of Veeva Vault. “Veeva Vault eTMF provides PRC Clinical with a modern clinical application for greater collaboration, quality assurance, and efficiency across its trials.”

Vault eTMF is part of the [Veeva Vault Clinical Suite](#), the industry’s first cloud platform that combines CDMS, CTMS, eTMF, and study start-up to unify clinical data management and clinical operations. For more information, visit veeva.com/eTMF.
