

Rojoli Technologies and Cloud AG Announce Merger

Peachtree Corners, GA - April 1, 2019 - For Immediate Release

Rojoli Technologies, a provider of cloud and managed IT services, today announced it has reached an agreement to merge with Cloud AG, a Microsoft cloud service provider.

Founder and CEO of Rojoli Technologies, Gentry Ganote, says of the decision to combine companies, "Cloud AG has been a close partner for several years. Merging companies will allow us to expand our offerings and deliver enhanced resources to our clients."

Gentry continued, "By adding Cloud AG's talented staff and impressive client portfolio, Rojoli is better positioned to serve businesses with our full complement of cloud and managed IT services, as well as foster our relationship with Microsoft."

Rojoli Technologies has been providing professional IT support for businesses since 2008. Rojoli team of experts act as an outsourced IT department; responding to issues quickly, and covering everything from servers and network infrastructure, to computers, workstations and mobile devices. Rojoli provides end-to-end solutions for all technology needs.
