## + COACHCARE

BOOTH  
#205

- Non-invasive analysis in a rapid 17 seconds
- Distinguish between fat mass and fat-free mass
- Assess skeletal muscle mass
- Quantify visceral fat in absolute values
- Evaluate total body water, extracellular water and fluid distribution

- Custom-branded platform to deliver a clinic's unique protocol
- Biometric data uploaded to an online physician dashboard and available to staff
- Up-to-the minute alerts on anything out of compliance
- HIPAA-compliant messaging and video conferencing
- Detailed reporting for management

### Benefits

- Quick, easy to use technology and devices for both medical staff and patients
- Patients and coaches stay more connected and engaged between clinic visits
- Patients are more motivated to stay on track due to daily feedback
- Patient quality of care is enhanced through remote monitoring of daily and historical trends
- Patients achieve significant positive outcomes
