Katalon is recognized as a March 2019 Gartner Peer Insights Customers' Choice for Software Test Automation

Gartner Peer Insights recently announced Katalon—an end-to-end solution for Web, API, and mobile apps test automation—one of the seven best choices in the Software Test Automation industry, as reviewed by customers. This distinction is based on feedback and ratings from end-user professionals who have experience purchasing, implementing and/or using the product or service.

Atlanta, GA, March 20, 2019 – Katalon, a leading provider of Software Test Automation solutions, is excited to share that they were named a March 2019 Gartner Peer Insights Customers' Choice for Software Test Automation for their product Katalon Studio.

As of March 22, 2019, Katalon has the second highest number of reviews out of 34 companies listed on Gartner Peer Insights' Software Test Automation market.

For this distinction, a vendor must have a minimum of 50 published reviews with an average overall rating of 4.2 stars or higher. Katalon received more than 250 reviews and a 4.5 rating out of 5.0 for the product Katalon Studio as of March 14, 2019.

According to Gartner, the software test automation market offers tools, technologies, components and services that together constitute the critical elements of automated testing. It includes tools for performing static code analysis, functional testing, and load and performance testing in an automated way. This market focuses on functional software test automation tools. These tools enable an organization to design, develop, maintain, manage, execute and analyze automated functional tests for applications running on different platforms (including desktop, web, mobile and server). They can run automated functional tests by driving the user interface (UI) of an application (known as UI test automation), or interact with the application through an application programming interface (API test automation)) or communication protocol."
"Our team at Katalon are grateful and humble to be named a Customers' Choice for Software Test Automation. We believe that this recognition is a reflection of the trust of Katalon Community, and that it represents the commitment we have to our customers to deliver world-class automation," said Vu Lam, CEO of Katalon. "Katalon will continue our community-first approach to innovate while we execute on our product roadmap to meet the needs of our customers, the modern Continuous Integration and Continuous Delivery system, and the ever-growing test automation industry."

Katalon LLC is a software company that offers test automation solutions and professional services to help address the sharp demand of automated testing in Continuous Integration and Continuous Delivery. Katalon Studio—a Katalon product—revolutionizes the use of open-source test automation frameworks such as Selenium and Appium by eliminating their technical complexities to allow testers to efficiently set up, create, run, report and manage automated tests. Katalon Studio is made available to the test automation community at no cost and can be downloaded from www.katalon.com.
