PROBLEM

Biggest problems of today's modern society:

LONELINESS and **BOREDOM**.

There is currently no efficient way to spontaneously meet with others offline.

- ✗ **Messaging apps** where users text tens of friends only to find out everyone is busy - **FAIL**
- ✗ **Dating apps** where a match rarely ends up in a meeting (0.7% conversion rate on Tinder) – **FAIL**
- ✗ **Event apps** which are focused on group, organized, impersonal events - **FAIL**

SOLUTION: Spontime

The first real-time spontaneous activity app.

Spontime = Spontaneous Time.

Match and Meet TODAY.

Using the power of **Machine Learning**, Spontime connects two people who want to perform the same activity at the same time - e.g. coffee, jogging, or lunch.

PRODUCT

FIND FUN ACTIVITIES AROUND YOU...

Every time you feel bored there are at least 100 people around you who are bored as well.

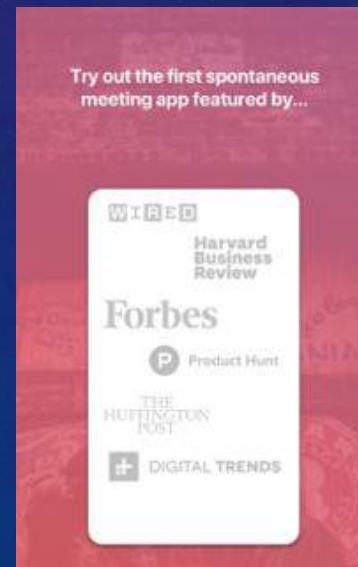

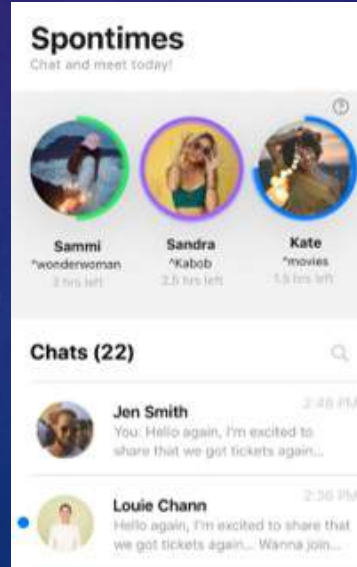

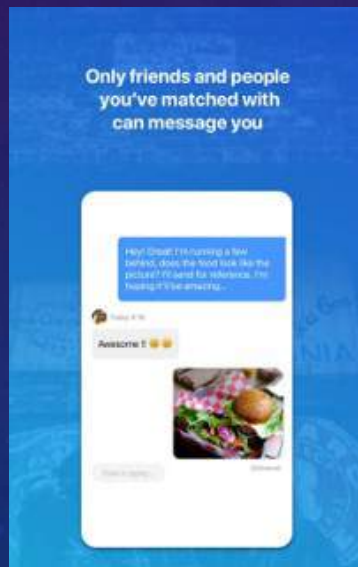

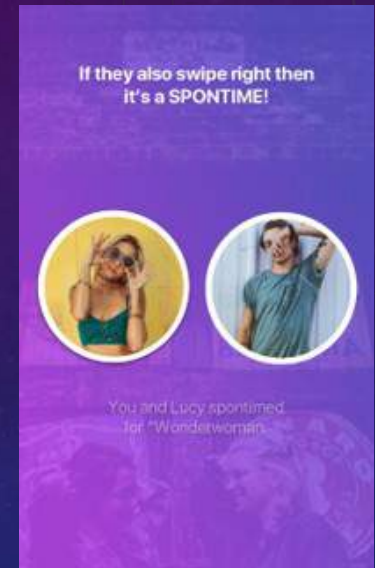

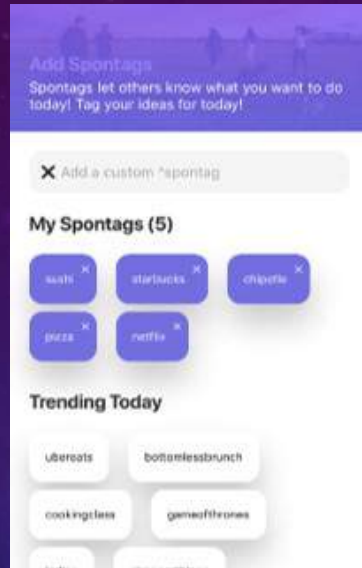

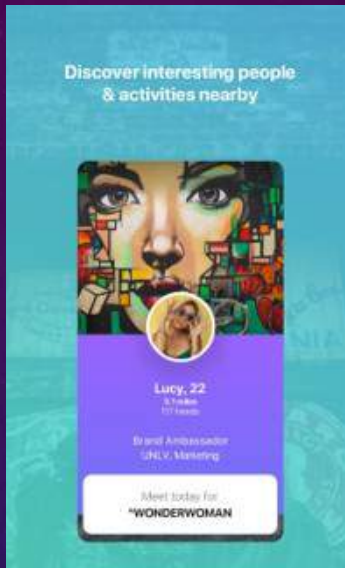

See what people around you are up to and join them right away.

...OR INVITE OTHERS TO YOUR ACTIVITIES

Want to grab lunch, go jogging, or get drinks? Spontime it and let others join you.

The APPLICATION

PERFECT FOR:

- College Students
 - High School Students
 - International Students
 - Digital Nomads
 - New Movers
 - Young Adults
- and anyone looking to meet new friends quickly

COMPETITION – WHY SPONTIME?

Dating apps (Tinder, Bumble):

- mostly used for dating
- allow users to match, but do not help in any way to actually meet offline - conversion rate from match to meeting on Tinder - 0,7%

Event apps (Meetup, Eventbrite, Facebook Events):

- organized, formal, impersonal event apps

***Spontime

- users meet the same day they match
- not a dating app, but a spontaneous activity, friendship app- the market is enormously bigger.

CONFIDENTIAL

COMPARISON - WHY SPONTIME?

APP	Spontime	Tinder	Meetup	Facebook Events
Type of meeting	Daily activities - coffee, jogging, lunch, spontaneous meetings	Dates and hookups	Organized Events based on interests	Organized Events, parties
Process	Match and meet today	Match, Chat, Schedule Meeting, Wait, Meet	RSVP	Join
When?	Right now; today	Usually couple days/weeks after match; match rarely ends in a meeting	Plan up to months ahead, rarely spontaneous	Plan up to months ahead, can go now
Who	Friends and people nearby	Dates	Groups of similar interests	Friends and many other random people
Purpose of the meeting	Fun, Meet new people, Kill boredom, any activity -beer, jogging, lunch	Date, hookup, relationship	Networking, development of interests	Party, events
Meeting rate	20-30% expected-users who match, show up	0.8% conversion rate from match to meeting	People RSVP but don't appear	People join but don't come
Relationship between attendees	Personal	Personal	Impersonal, hard to build personal relationship during the meeting	Very Impersonal - usually no actualy host and schedule
Best for	Travelers, those who want to meet new people; kill boredom; waiting time	Those looking for relationships, hookups, dates	Those willing to network with people from similar industry/with similar interests	Friends looking for an event to go together
