Integrity First

ANNOUNCING INTEGRITYFIRST FOR HEALTHCARE

MAKE BETTER HIRING DECISIONS WITH INTEGRITYFIRST FOR HEALTHCARE

IntegrityFirst just got even better! IntegrityFirst for Healthcare delivers business impact details providing your hiring managers with a deeper insight into an applicants past relevant healthcare experience. Your hiring managers are then able to quickly prioritize applicants based on potential culture fit, service experience and potential long term retention.

SAMPLE QUESTIONS & RESPONSES

IntegrityFirst for Healthcare asks job candidates direct healthcare related questions to determine their experience and excellence in working in the healthcare field. Your hiring managers are then armed with this critical information about each applicant, making their selection process faster and easier. Below are a sample of the candidate interactions provided for each candidate in the business impact details section:

- The candidate's interactions with the elderly
- The candidate's openness to work overtime as needed
- The candidate's experiences in working with those in a wheelchair
- The candidate's experiences with those in hospice care
- The candidate's experiences with demanding patients
- How often the candidate has distributed medications to patients
- How often the candidate has cared for a dying or sick individual

BENEFITS

- Minimize the guesswork and increase the speed to hire applicants by using a test specifically designed for healthcare workers
- Prioritize applicants who possess the skillset each of your open job positions require
- Specifically identify those applicants who best fit the job with relevant experience
- Evaluate an applicants mindset as it relates to quality, service and safety measures
- Identify talent that best matches your companies culture, who will stay in the job longer and grow with your organization
- Anticipate an applicants willingness to meet the demanding rigors of today's healthcare positions
- Provide hiring managers with the tools they need to interview most effectively
