***Radcolube*[®] Aviation Hydraulic Fluids – The Right Choice!**

Radco Industries, Inc. (www.radcoind.com) proudly announces the 15+ year anniversary of the introduction of the *Radcolube*[®] line of aviation hydraulic fluids! *Radcolube*[®] aviation hydraulic fluids perform even under the most demanding conditions because *Radcolube*[®] products are produced with the latest technology and highest quality raw materials. Radco offers both Petroleum-based hydraulic fluids such as *Radcolube*[®] RHP5606 and *Radcolube*[®] RHP6083, as well as fire-resistant hydraulic fluids such as *Radcolube*[®] FR282 and *Radcolube*[®] FR257.

Available in many convenient packaging sizes and shipped fresh with the highest remaining shelf life possible, *Radcolube*[®] products are produced and packaged under a stringent ISO 9001 quality program. All of Radco's products are backed by Radco's professional sales & technical support teams.

Performance, quality, convenience and technical support are what have made *Radcolube*[®] aviation hydraulic fluids the right choice for MROs, FBOs, OEMs and other users of aviation hydraulic fluids for 15+ years! *Radcolube* products are qualified to these and many other MIL SPECS:

MIL-PRF-6083

MIL-PRF-5606

MIL-PRF-83282

MIL-PRF-87257

“This is a significant milestone for Radco Industries in both the military and commercial aviation markets.” - Scott Mondy – Radco Account Manager for Aviation Products
