

## **iPatientCare is all set to demonstrate Patient Engagement and its Challenges in VUCON MAY 2019 session**

**iPatientCare will illustrate, patient coordination and use of patient engagement tools and techniques can increase revenue for the providers.**

**Old Bridge, NJ, May 09, 2019** - iPatientCare, a pioneer in cloud-based ambulatory EHR and **Revenue Cycle Management services**, announces virtual user conference (VUCON), that will highlight the vital areas where providers are losing monetary strength due to lack of in-patient coordination and not utilizing patient engagement tools and techniques.

VUCON 2019 sessions are designed to demonstrate the new products and software versions of iPatientCare and its other useful add-ons as healthcare standards and policies are constantly changing. These monthly sessions are educational and at the same time entertaining too. This conference intends to keep the users updated and engaged with the current industry topics and other augmentations that are occurring within the iPatientCare system.

**The session commences on May 16, 2019; 3:00 pm – 4:30 pm EST and will highlight in detail:**

1. The processes of utilizing the right kind of tools for patient engagement.
2. The use of patient engagement tools and techniques and the repercussions of not utilizing it in the right manner.
3. The loss of revenue that providers face, exhibiting how iPatientCare contributes to eradicating patient engagement challenges.

### **About iPatientCare:**

Based at Old Bridge, New Jersey, iPatientCare is a private-held Corporation that is nationally recognized as one of the leading companies providing EHR and integrated **MACRA-ready solutions** and intelligent medical billing and revenue cycle enhancement services to physician offices providing primary and specialty care, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide.

At iPatientCare, we help healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. Our expert teams are comprised of senior executives with extensive experience in clinically-driven **revenue cycle management** systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations, and SLA. We also provide a dedicated account manager and a team of talented experts assigned to work as an extension of your office, instead of operating as an outsourced billing company or technology vendor.

iPatientCare EHR 18.0 has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at the [ONC Certified Health IT Product List](#). If desired, we make the difficult tasks of revenue cycle optimization and MACRA/PCMH/QR reporting easier by bundling innovative EHR and other cloud-based practice solutions as part of our revenue cycle management and MACRA consulting services at no additional costs.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry for the year 2018 by CMS, and has a distinguished credit of being selected as a preferred EHR vendor and medical/chiropractic billing company by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
