

U.S. REAL ESTATE DIRECTORY USDRE.COM MAKES THE SEARCH FOR A REAL ESTATE AGENT SIMPLE FOR HOMEOWNERS.

With a living database of hundreds of thousands of qualified real estate agents, prospective homebuyers and home sellers can comfortably rely on US Directory of Real Estate for their real estate needs.

The US Directory of Real Estate (US DRE) has announced version 2.0 of the Agent Match search Engine that lets home buyers and sellers search and find a real estate agent or realtor in any city in the USA. <https://usdre.com/> While other search directory's lets you shop for homes, USDRE lets you shop for agents. Real Estate Investor, Businessman, and TV star Kevin O' Leary from TV's Shark Tank said the USDRE.com is a "Wonderful and FREE service."

These days, there is a growing desire for families and individuals to have their own home. They're not just seeking any type of home but a dream home. Likewise, there are people looking to sell their properties due to financial, personal and environmental factors. However, finding a qualified and reliable real estate agents that will guarantee the satisfaction of both the home buyers and home sellers can be a daunting task. This is because there are plenty of ways to search for homes but there wasn't a good way to search for real estate agents. Search websites like the MLS, Zillow, Trulia, and others do not do what the USDRE can. The US Directory of Real Estate (US DRE) has made the search easier by pairing Home buyers and home sellers with qualified real estate agents.

The USDRE works with Agents from some of the most well known brokerages in the country such as: RE/MAX, Century 21, Keller Williams, Coldwell Banker, First Team, Realty One, and more. The role of qualified Real estate agents cannot be underestimated. A qualified real estate agent makes the process of buying and selling of homes much easier. They are professionals that can network with other professionals so that their client can have their dream home or sell their property at the appropriate prices.

Visitors to the USDRE's website, most of whom are prospective real estate buyers and sellers, are graced with a search box where they can search for a real estate agent or broker. What's more, they can choose areas and location and can search by entering the ZIP code. The USDRE relies on proprietary search algorithm called AGENT MATCH that intelligently matches home buyers and sellers with qualified real estate agents.

Real Estate Mogul and Best Selling Author, Grant Cardone says that "USDRE.com is doing great things providing a free search engine to match up home buyers, sellers - brokers and agents... Leads Matter." Real Estate agents can get home buyer leads by working with the USDRE.

"The company was started as a small list of trusted real estate agents, but has now grown into an international resource for home buyers that are relocating a long distance." Says the Company's President, Bradley Shaw.

Unlike most other real estate websites, USDRE is simple and easy to use putting qualified real estate agents at your fingertips. Connect with qualified real estate agents now by visiting <https://usdre.com/>.
