ValvTechnologies' Vice President Key Accounts to Present at Valve World Americas Conference 2019

HOUSTON, TX. – ValvTechnologies announced today that its Vice President of Key Accounts, Ron Anselmo, will be a featured speaker at the Valve World Americas Conference on June 19-20, 2019. Held at the George R. Brown Convention Center in Houston, Texas, the event will bring together thousands of valve industry professionals from around the world for an in-depth program covering the latest technologies in today's valve market.

Anselmo is a thought-leader with over 30 years of leadership experience in the management of technical and commercial relationships in the petrochemical and power industries. Anselmo will present on Thursday, June 20 at 11:00am in the Fugitive Emissions session. His talk, "International Maritime Organization's 2020 Sulfur Mandate and Coking Solutions," will explore impacts on the heavy oil industry.

"I am looking forward to being a guest speaker at this year's Valve World Americas conference," said Anselmo. "This is a unique opportunity to interact with end-users and potential customers regarding the impacts of high demand for low sulphur fuels from heavy oil feedstocks."
