

WHO WE ARE

Formaspace Office inspires forward-thinkers through the design and manufacture of authentic, differentiated, and unique office furniture projects. Our industrial-styled furniture marries form to function with flexible solutions for co-working spaces, private offices, lounge areas, conference rooms, and a variety of office environments.

Serving over 80% of the Fortune 500, Formaspace Office custom designs and engineers new products with a commitment to fast, timely delivery. Formaspace is devoted to improving the world we work in. We believe in innovation, design, ergonomics, environmental sustainability, and social responsibility.

"You imagine it. We build it."

WHAT WE DO

Formaspace Office manufactures authentic, differentiated, and unique furniture solutions. We collaborate with commercial furniture reps, dealers, architects, and interior designers to creatively solve workplace design problems.

Our expertise lies in large-scale custom solutions. You imagine it, we build it. Our in-house industrial designers will design and engineer a solution for each of your commercial interior projects. We even manage your furniture project from ideation to installation.

When you become a dealer, you gain our marketing, project management, engineering, and sales teams. Our market verticals include labs, healthcare, education, and industrial facilities. With us in your portfolio, you'll expand your reach to more project opportunities.

"Ideation to Installation"

HOW WE DO IT

We would love to be a part of your project from the beginning until the end. A single point of contact will simplify the implementation of each of your projects.

You bring your idea to us, and we then design and engineer it to fit your needs, rapidly prototype it, produce it, deliver it on-time, and upon request, can easily install it. We like to call this process continuous chain of custody. We want to be a part of your project every step of the way to guarantee success.

*“Independently modular
and height adjustable”*

INTRODUCING WELDMARX™

a unique take on office furnishings

It all started with one of the largest dealers on the West Coast and architects across the country that were looking for more than just a height adjustable work surface, but a unique desk that was independently modular and height adjustable. They wanted style and quality for an affordable price. We gladly took on that challenge.

We tirelessly refined our product offering for the past three years to finally reveal a desk that was first of its kind, the ideal industrial-style sit-to-stand desk. All of this research and development led to Weldmarx™, our premier line of office furniture products.

WELDMARX™ DESKING

attract and retain top talent with Weldmarx™ desks

First impressions are becoming more important these days. Now, offices not only have to have a certain standard of benefits and values, but they also have to have a certain style and energy. An office needs to stand out to attract and retain top talent, and we believe that our desking solutions do just that.

Weldmarx™ I, our modular sit-to-stand office desk is highly customizable with three different hardwood surface options, five standard laminate options, and powder coated with ten different frame color options.

We also offer several other desking solutions in addition to Weldmarx™ I. Weldmarx™ II+ is our back-to-back, height adjustable series benching. It is designed for open offices and companies that require flexibility for changing dynamics. Each twin desk system gives plenty of space to employees and independently functioning height adjustability gives them an ergonomic experience. Upon request, privacy panels can be utilized as communication boards.

Additionally, we offer Weldmarx™ III, which is the starter piece that is the essential cornerstone of our private office desk system. This static desk reflects the strength and the character of industrial office design.

WELDMARX™ C SERIES

customizable conference tables

Formaspace Office offers several different types of conference table options to best utilize your conference room space. We can modify a design from our standard product line or create a whole new conference table using your unique ideas.

Our standard conference table line, the Weldmarx™ C Series, includes several varied sizes,

shapes, and material options. Surface shapes offered are ellipse, round, trapezoidal, racetrack, and rectangular shapes based on the distinct functions required for the meeting tables. Select from our hardwood or laminate options, frame colors and unique base shapes, Cone, Eiffel, A, or V.

CONFERENCE TABLES

Formaspace Office's line of conference tables allows you to easily mix and match table designs or customize the product to match your office's current design. The line drawing below demonstrates all of the options that we currently offer in our standard product line of office furniture. There are 7 different shapes of work surfaces to choose from and 3 different leg options.

1. Choose your desired top shape and size

See hardwood and laminate top surface options on page 80.

2. Choose your base

Note: The cone base and round top are exclusively offered together. See powder coat color options on page 80.

3. Choose your accessories

We offer different accessory options depending on your office's needs. See options on page 81.

AVAILABLE TABLE SIZES

WELDMARX™ STORAGE PRODUCTS

In our office line, Weldmarx™, we feature unique storage solutions. Our product line focuses on sleek and simplistic designs with an industrial aesthetic. We offer a mobile pedestal, Weldmarx™ XI, that stores important paperwork, snacks, gym shoes, and any other essential office supplies. The mobile pedestal can slide under the bench to save space or move next to the desk to offer alternative seating for quick collaboration. Varied sizes, drawer configurations, and countertop options are available to complete the design aesthetics and functionality your clients are looking for.

Ask about our credenza, Weldmarx™ XII, our lateral file, Weldmarx™ XIII, our bookshelf, Weldmarx™ XIV, and our high back organizer, Weldmarx™ XV. All storage solutions are flexible for private or open office spaces and are available in varied sizes, shelf options, materials, and styles.

ANCILLARY FURNISHINGS

Unique spaces need unique furniture. We offer a wide range of furnishings for any space. We created a coffee table, Weldmarx™ CI, and an end table named Weldmarx™ LII for any authentically industrial environment. Utilize our nesting tables in corporate training rooms and design your unique receptionist stations to make a great first impression. Lastly, we offer a mobile communication board, Weldmarx™ MI, with the option to select cork or modify it with any material of your choosing.

OPEN OFFICE

Open office designs are in. That is why we created furniture to compliment that. Open offices are critical to collaboration and provide an inclusive office culture. It fosters a more creative and communication-based environment.

Our office furniture is designed to be shown off at all angles, which is why they work so well in all office environments. They are easily movable and adjustable so that as the company grows, so can the accommodations, without having to move or pay more for a larger space.

Besides being functional, industrial open offices are unique in that they show the raw structures and authenticity of the materials used. It provides a very warm and authentic feel to any design.

PRIVATE OFFICE

furnishings for executive workspaces

Desking solutions are needed in more private spaces, and that is why we designed Weldmarx™ III, the starter piece of our private office desk system. In addition to Weldmarx™ III, we offer L-shaped desk options, VI and IV. Our L-shaped desks are a combination of the starter desks Weldmarx™ III, and a desk return, Weldmarx™ V. Depending on the office layout or the dominant hand, L-shaped Left or L-Shaped Right desks can be considered.

The choice of industrial style furnishings conveys a sense of purpose, productivity, and permanence that design-centric end users want to convey to their customers, employees, the media, and the investor community. People are looking for authenticity, durability, and natural materials in their surroundings and furnishings, and we provide just that.

UNIQUE MEETING TABLES

made-to-order conference room furniture

In addition to our standard line of conference tables, we also can make custom conference tables for more unique needs.

Pictured on the right are two custom tables we created to debut at NeoCon. The top photo is our unique conference table that perfectly combines modern technology needs and industrial style. The surface is a 10' height adjustable trapezoidal slab of walnut wood embedded with a pop-up console that offers storage, power, HDMI inputs, LED light controllers and data. This table features custom perforated steel cubbies and branded lower panels and end caps.

To the right is our unique ping pong conference table. The table has a sit-to-stand functionality and is designed to separate into two smaller collaboration tables easily. The table includes an industrial perforated sheet of steel as the ping pong net and a stunning African Mahogany hardwood surface. This table is not only built for collaboration, but it also provides a fun culture building aspect.

The large picture on the far right is a 14' conference table made of hardwood walnut that perfectly compliments the end user's conference and lounge area activities. The height of the table is adjusted with the authentically industrial hand crank mechanism located at either end of the table.

*"Authentic.
Differentiated.
Unique."*

CUSTOM CONFERENCE TABLES

we can bring your ideas to life

Formaspace Office designs custom conference tables for many different clients. We create different styles of legs, paired with unique materials for whatever look or style your client wants for their workspace.

LOUNGE & CAFÉ

furnishings for office break out spaces

There are several benefits of having an office café. With millennials being the largest generation in the workplace, an office cafeteria and lounge will help attract and retain new talent for your clients. Break out spaces also assist in creating a social environment where employees have the opportunity to network and collaborate.

We design custom lounges to utilize your clients' office space efficiently and effectively. From the office to café, we produce a cohesive and unified look throughout the workspace.

CUSTOM OFFICE FURNITURE PROJECTS

In addition to the standard product lines that Formaspace Office offers clients, we also offer our abilities to create custom solutions. Do you have a major problem that needs to be fixed? Do you have a unique space that requires unique furniture? Do you need your new furniture to match your existing furniture? Formaspace is here to help you every step of the way. Contact us to see how we can upgrade your current space!
